

Aloha Cares Half-Year Report

Before the summer we went to the Residencia Virgen del Carmen -Home for elderly people - in Estepona and delivered some lamps from the “old clubhouse” and two big flat screen TVs we received from Richard Fawcett and Herbert & Yvonne Jacklin.

On the patio Virgen del Carmen with some residents

Thanks to our 1st Aloha Cares Tournament, our collaborators and our donators - see our Guide – we have more funds that will enable us to extend our work towards the families and specially their children in La Campana. Our normal food delivery and payments for medicine will continue.

Depending on the ages of the kids, we are planning to offer these children:

- after school teaching, for the ones that have difficulty
- English Classes
- Music-Singing-Dance-Classes
- and Sports-Classes

We are working on this and hope we can offer some of these children a good opportunity.

The director, Flori, showed us the facilities and we could see that all the items given before (sofas, tables, terrace furniture etc.) were being used, which made us very happy. The two big flat screen TVs were the highlight and everyone was delighted!

With Flori (left), the director, visiting the facilities

Aloha Cares and our 1st Tournament was published in two Magazines (Ladies in Golf - you can look it up on internet - and Society Marbella). And please do not forget: save the date for next year's tournament on 18 of April 2020.

We thank you all for making this possible and wish you a nice summer!

Un fuerte abrazo!

Cristina, Heinz & Lilo
