

# COMMUNICATION COMMITTEE

## ALOHA CARES

*Do you remember Sara?*

Lilo & Heinz Goesswein unexpectedly met with Sara Almagro in Marbella. Sara, the 21-year-old from Marbella, whose hands and feet were amputated due to meningitis in 2018, manifested her gratitude for Aloha Golf Club's contribution with the donation raised amongst our members. It helped her to eventually get the prosthetic feet and hands which enable her to live an independent life and to continue with her love for surfing waves.

Sara can walk very well, even stairs are not a big obstacle, she can do everything she wants with her hands. She radiates great satisfaction and gratitude. We were allowed to photograph her and we have permission to publish these lines. ALOHA CARES has contributed only a small part to the prostheses, but without thumbs it would not really work....

Sara, currently a third-year law student at Malaga university, was the Spain's Champion of Para Surfing in 2021 and came second in the ISA World Para-Surfing Championship in California in December 2021. An example to overcome adversity that cannot go unnoticed.

Thanks again to our generous members, to our great Club for supporting our local community.
